PROFESSIONAL EXPERIENCE

Paris-Saclay@OHP Summer school — 07/2026
OHP — Haute-Provence, France
Astrophotography summer school.

Internship — 05/2026 – 06/2026
Irène Joliot Curie Laboratoire — Orsay, France
Data pre-analysis on $\Lambda^0_b \to \Lambda^0 e^+ e^-$ decay at LHCb.

Under the supervision of Nathan Heatley and Marie-Hélène Schune.

Iternship — 05/2025 – 07/2025
Laboratoire d'Ondes et Matière d'Aquitaine (LOMA) — Talence, France
Generation of plane gravity waves at the air-water interface in deep water regime and charaterisation through Background Oriented Schlieren imaging.

Under the supervision of Etienne Brasselet and Elena Annenkova.

EDUCATION

Master 1 High Energy Physics — 09/2026 – Present
Institut Polytechnique de Paris — Palaiseau, France

- Electives : Group theory in subatomic physics, General Relativity, Black Holes & Neutron stars, Stellar Astrophysics, Manifolds & Differential Forms and Riemannian Geometry, Wave equations and GR, Lie groups and compact groups, etc.
- Compulsary : QFT, Particle Physics, etc.
- Dual degree IPP/ETH Zurich.

Licence 3 in Physics — 09/2025 – 07/2026
Université Paris-Saclay — Orsay, France

- *With Highest honours, ranked 3 overall.*
- Including Quantum Mechanics, Statistical physics (both classical and quantum), EM, Special Relativity, Complex analysis, Distributions, PDEs, Fluid dynamics, Classical mechanics, etc.

PROJECTS

Self Study (ongoing project) — 06/2025 – Present
Mathematics and Physics
Some of my notes (with citations).

Time depent Shrödinger equation solver on Python — 09/2025 – 11/2025
Group project with two classmates
Solves the bouncing neutron problem, quantum harmonic oscillator problem, etc.

INTERESTS

Music — Classical and Rock music (and sub-genres).

Astrophotography — Deep sky astrophotograhy in wide field and planetary imaging.

LANGUAGES

English — Fluent

French — Native/Bilingual

Arabic — Native/Bilingual
