PROFESSIONAL EXPERIENCE

Paris-Saclay@OHP Summer school

OHP

Astrophysics and astrophotography summer school.

07/2026

Haute-Provence,
France

Internship

Irène Joliot Curie Laboratoire

Data pre-analysis on $\Lambda^0_b \rightarrow \Lambda^0 e^+ e^-$ decay at LHCb.

Under the supervision of Nathan Heatley.

05/2026 – 06/2026

Orsay, France

Internship

Laboratoire d'Ondes et Matière d'Aquitaine (LOMA)

Generation of plane gravity waves at the air-water interface in deep water regime and characterisation through Background Oriented Schlieren imaging.

Under the supervision of Etienne Brasselet and Elena Annenkova.

05/2025 – 07/2025

Talence, France

EDUCATION

Master 1 High Energy Physics

Institut Polytechnique de Paris

- Electives: Group theory in subatomic physics, General Relativity, Black Holes & Neutron stars, Stellar Astrophysics, Manifolds & Differential Forms and Riemannian Geometry, Wave equations and GR, Lie groups and compact groups, etc.

- Compulsary: QFT, Particle Physics, etc.

- Dual degree IPP/ETH Zurich.

09/2026 – Present

Palaiseau, France

Licence 3 in Physics

Université Paris-Saclay

- *With Highest honours.*

09/2025 – 07/2026

Orsay, France

Licence 2 in Physics

Université de Bordeaux

- *With high honours.*

09/2024 – 06/2025

Talence, France

Licence 1 and Licence 2 in Physics & Chemistry

Université d'Angers

- *With honours.*

09/2022 – 06/2024

Angers, France

Baccalauréat général

Lycée François Magendie

- *With honours.*

07/2022

Bordeaux, France

PROJECTS

Self Study (ongoing project)

Math and Physics

Some of my notes [at this link](#).

06/2025 – Present

Time dependent Schrödinger equation solver on Python

Group project with 2 classmates

Solves the bouncing neutron problem, quantum harmonic oscillator problem, etc.

09/2025 – 11/2025

INTERESTS

Music — Classical music and Rock (and sub-genres).
Astrophysics and astrophotography — Deep sky
astrophotography in wide field and planetary
imaging. | **Whittling**
