## PROFESSIONAL EXPERIENCE

---

### Paris-Saclay@OHP Summer school

*OHP*

Astrophysics and astrophotography summer school.

07/2026

Haute-Provence,  
France

### Internship

*Irène Joliot Curie Laboratoire*

Data pre-analysis on  $\Lambda^0_b \rightarrow \Lambda^0 e^+ e^-$  decay at LHCb.

Under the supervision of Nathan Heatley.

05/2026 – 06/2026

Orsay, France

### Internship

*Laboratoire d'Ondes et Matière d'Aquitaine (LOMA)*

Generation of plane gravity waves at the air-water interface in deep water regime and characterisation through Background Oriented Schlieren imaging.

Under the supervision of Etienne Brasselet and Elena Annenkova.

05/2025 – 07/2025

Talence, France

## EDUCATION

---

### Master 1 High Energy Physics

*Institut Polytechnique de Paris*

- Electives: Group theory in subatomic physics, General Relativity, QFT, Black Holes & Neutron stars, Stellar Astrophysics, Manifolds & Differential Forms and Riemannian Geometry, Wave equations and GR, Lie groups and compact groups, etc.

- Dual degree Institut Polytechnique de Paris/ETH Zurich.

09/2026 – Present

Palaiseau, France

### Licence 3 in Physics

*Université Paris-Saclay*

- *With Highest honours.*
- Electives: Applied thermodynamics, Advanced Quantum Mechanics, Special Relativity, Solid State Physics.

09/2025 – 07/2026

Orsay, France

### Licence 2 in Physics

*Université de Bordeaux*

- *With high honours.*
- Cursus Master Ingénierie: Rayonnement & Instrumentation.
- Elective: Astronomy.

09/2024 – 06/2025

Talence, France

### Licence 1 and Licence 2 in Physics & Chemistry

*Université d'Angers*

- *With honours.*
- Cursus Master Ingénierie: Photonique signal Imagerie.

09/2022 – 06/2024

Angers, France

### Baccalauréat général

*Lycée François Magendie*

- *With honours.*
- Courses: Math, Physics & Chemistry, Computer Science.

07/2022

Bordeaux, France

## PROJECTS

---

|                                                                                                                                                                                     |                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| <b>Self Study (ongoing project)</b><br><i>Math and Physics</i><br>Some of my notes <a href="#">at this link</a> .                                                                   | 06/2025 – Present |

## INTERESTS

---

**Music** — Classical music and Rock (and sub-genres).  
**Astrophysics and astrophotography** — Deep sky  
astrophotograhpy in wide field and planetary  
imaging. | **Whittling**

## LANGUAGES

---

- English
- French
- Arabic
