PROJECTS

Internship at Laboratoire Ondes et Matière D'Aquitaine, Talence — *Experimental Fluid Mechanics*

28 May 2025 - 10 July 2025

“Study of Unidirectional Gravity Waves at the Air-Water Interface in the Deep Water Regime”, under the supervision of E.Brasselet and E.Annenkova.

Bibliographic Project, Talence — *Stokes Parameters*

February 2025 - May 2025

Bibliographic Project, Angers — *Quantum Computers*

November 2023 - May 2024

EDUCATION

Université Paris-Saclay, Orsay — *Licence 3 in Physics*

September 2025 - May 2026

Options : Comportement des matériaux solides et liquides, Mécanique Quantique avancée, Introduction à la Physique du Solide et Introduction à la Relativité Restreinte.

Université de Bordeaux, Talence — *Licence 2 in Physics*

September 2024 - May 2025

Deliberate choice to restart my second year of Licence in physics in order to consolidate and deepen my understanding of the fundamental concepts, ranked : 2/69 overall and 1st in Linear and Hermitian Algebra with a GPA of 19.96/20.

Université d'Angers, Angers — *Licence 1-2 in Physics & Chemistry*

September 2022 - May 2024

Lycée François Magendie, Bordeaux — *specialties : Math - Physics & Chemistry*

September 2019 - July 2022

GOALS

Master's degree in High Energy Physics.

PhD in High Energy Physics.

Further develop expertise in theoretical physics and mathematics.

SKILLS

Astrophotography : wide field deep sky astrophotography.

Computer skills : LaTeX (examples on my website), Python, Langage C, Word.

Scientific English : thorough study of *The Classical Theory of Fields* by Landau & Lifshitz.

LANGUAGES

English - C1 or above (Cambridge test)

French - Native (Bac)

Arabic - C1 or above (9 years studied in Casablanca, Morocco)
