PROJECTS

Paris-Saclay@OHP, OHP — Summer School

26 July 2026 - 31 July 2026

Astrophotography and astrophysics summer school to improve my technique and knowledge in the subjects.

Internship at IJClab, Orsay — Λ_b angular analysis at LHCb

11 May 2026 - 31 June 2026

Data analysis consisting of pre-analysis on dipole pair producing Flavour Changing Neutral Currents to find deviations in the Standard Model .

Python Project, Orsay — Numerical simulations

2 September 2025 - 3 December 2025

Programmed a solver of the time dependent Schrödinger equation.

Internship at Laboratoire Ondes et Matière D'Aquitaine, Talence — Experimental Fluid Mechanics

28 May 2025 - 10 July 2025

Generation of plane gravity waves in deep water regime and an optical system based on BOS imaging to characterize the waves generated.

EDUCATION

Université Paris-Saclay, Orsay — Licence 3 in Physics

September 2025 - May 2026

Electives : Applied Thermodynamics, Advanced Quantum Mechanics, Special Relativity and Introduction to Solid State Physics.

Université de Bordeaux, Talence — Licence 2 in Physics

September 2024 - May 2025

Deliberate choice to restart my second year of Licence in physics only.

Université d'Angers, Angers — Licence 1-2 in Physics & Chemistry

GOALS

→ Master's degree centered around Field Theories.

→ PhD in theoretical or mathematical physics..

→ Develop expertise in Physics and Mathematics.

SKILLS

Scientific English : ongoing study of Nakahara's Geometry Topology and Physics, Weinberg's The quantum theory of fields Vol 1 and Landau's The Classical Theory of Fields.

Computer skills : LaTeX, Python, C programming, Office, Linux.

HOBBIES

Astrophotography, Reading,
Photography, Music .

LANGUAGES

English - C1 or above
(Cambridge Linguaskill test)

French - Native

Arabic - Native
